

## Curriculum vitae

Name: **Anna Śrębowata**  
Date of birth: December the 23<sup>rd</sup>, 1975  
Marital status: Married with three children  
Address: Institute Physical Chemistry  
Polish Academy of Sciences  
Kasprzaka 44/52, Warsaw 01-224

## Education Qualifications

- October 2016 PhD. DSc in Chemistry Institute of Physical Chemistry PAS  
*Catalysis for environmental protection: application of zeolite materials in non-destructive removal of chlorine from organic compounds*
- January 2007 PhD in Chemistry  
Department of Catalysis on Metals, Institute of Physical Chemistry PAS  
*Modified palladium catalysts in hydrodechlorination of organic compounds "*  
Supervisor: Prof. Zbigniew Karpiński
- June 1999 Master in Chemistry, field of Physical Chemistry  
Department of Physical Chemistry, Jan Kochanowski University in Kielce  
*Catalytic oxidation of chlorine and carbon containing species deposited on zeolite catalysts "*  
Supervisor: dr Jerzy Oszczudłowski

## Professional experience

- January 2020 - until now, IChF PAN, Spectroscopic and Microscopic (STM/AFM) Studies of Intermolecular interactions led by Professor Robert Nowakowski, position: institute professor
- November 2017 - December 2019 IChF PAN, Modern Heterogeneous Catalysis Group (MoHCA) led by dr hab. Jacinto Sá, position: Associate Professor,
- January 2015 - October 2017 IChF PAN, Modern Heterogeneous Catalysis Group (MoHCA) led by dr hab. Jacinto Sá, position: Senior Research Scientist,
- June 2008 - December 2014 IChF PAN, Department of Catalysis on Metals led by prof. Zbigniew Karpiński, position: Senior Research Scientist,
- April 2007 - May 2008 , Laboratoire de Réactivité de Surface, Université Pierre et Marie Curie, Paris Postdoc position,
- January 2007 March 2007 IChF PAN, Department of Catalysis on Metals led by prof. Zbigniew Karpiński, position: Assistant of professor
- December 2002 -December 2006 IChF PAN, PhD student
- October 1999 - June 2002 teacher of chemistry and physics

---

## Research stays at home and abroad

- February 2020 France, Paris, Laboratoire de Réactivité de Surface, Université Pierre et Marie Curie, visiting scientist,
- October 2014 France, Paris, Laboratoire de Réactivité de Surface, Université Pierre et Marie Curie, visiting scientist;
- November 2008 France, Paris, Laboratoire de Réactivité de Surface, Université Pierre et Marie Curie, visiting scientist;
- April 2007- May 2008 France, Paris, Laboratoire de Réactivité de Surface, Université Pierre et Marie Curie, Post- doc position.

## Lectures and presentations

- 2023 invited speech, 4th Global Summit on Catalysis and Chemical Engineering, Rome, Italy
- 2019 invited lecture, 7th Conference on Frontiers in Organic Synthesis Technology; Budapest, Hungary
- 2019 invited lecture, Unipetrol- Centre for Research and Education, Litvinov-Zaluzi, ORLEN UniCRE a.s
- 2019 plenary lecture LI Conference on Catalysis in Kraków
- 2018 invited keynote lecture, 14th International Pannonian Symposium on Catalysis; Stary Smokoviec, Slovakia
- 2018 invited sectional lecture Polish Chemical Society Meeting in Kraków
- 2016 oral presentation, 13th Pannonian International Symposium on Catalysis; Trest, Hungary
- 2014 oral presentation, 7th Tokyo Conference on Advanced Catalytic Science and Technology; Kyoto, Japan
- 2013 oral presentation, 17th International Zeolite Conference; Moscow, Russia
- 2013 oral presentation, 23rd North American Catalysis Society Meeting, Louisville, USA

## Fellowships and awards

- 2023 Audience award for poster presentation during Annual Microsymposium, Institute of Physical Chemistry
- 2022 Cover Feature: Catalysts 12/2022
- 2020 Laureate of the Polish Prize of the Intelligent Development 2020 "Researcher of the future"
- 2020 Award for the poster presented during IPC PAS Annual Microsymposium ranked by a scientific jury
- 2019 Audience Award for the poster presented during IPC PAS Annual Microsymposium

- 
- 2018 Audience Award for the poster presented during IPC PAS Annual Microsymposium
  - 2017 Audience Award for the poster presented during IPC PAS Annual Microsymposium
  - 2015 Third prize in the competition in IChF for the best manuscript published in 2014
  - 2015 First prize in the competition for the best poster presented during the XLVII Annual Meeting on Catalysis in Kraków (award as one of the best two posters).
  - 2007 Scholarship funded by Renault during a postdoctoral fellowship in the period from April 2007 to June 2008, Laboratoire de Réactivité de Surface, Université Pierre et Marie Curie, Paris
  - 2007 Award for the PhD thesis
  - 2006 Award for the best oral presentation – Annual Microsymposium Institute of Physical Chemistry PAS

### **Other significant achievements**

- 2023 Co-chair of one session, EuropaCat 2023
- 2022 Member of the National Advisory Board, 15th Pannonian International Symposium on Catalysis
- 2019 Co-chair of section 09, 62 Polish Chemical Society Congress
- 2015 24th NAM Conference abstract reviewer
- 2014 Co-Organizer of the Conference ‘Structure and Reactivity of Metal/Support Systems’
- 2013 Chair of the Organizing Committee of the 6th International Annual Meeting of GDRI Catalyse.

Reviewer of scientific articles in international journals such as Applied Catalysis B:Environmental, Catalysis. Today, Catalysis Communications, Current Environmental Engineering, Industrial & Engineering Chemistry Research, International Journal of Physical Sciences, Chemical Engineering, Reaction Kinetics Mechanisms and Catalysis, RSC Advances, Fuel

Reviewer of: 16 PhD dissertations and 3 habilitations

Supervisor of 6 MSc students and 7 PhD students.

Dr Emil Kowalewski, who completed his PhD thesis at IChF under my supervision, received the Best PhD Thesis Award from the Polish Catalysis Club. The awarded thesis title is "Catalytic hydrogenation for technological applications and environmental protection." Dr Kowalewski represented Poland in the Best PhD Thesis Award competition of the European Federation of Catalysis Societies.

2022, 2023 and 2024 - Member of the evaluation committee in the Gold Medal of Chemistry competition for the best bachelor's and engineering thesis

2015 Co-editor, co-author of the book: „Hydrogenation on cheap transition metals”, Taylor & Francis,

---

2014 Guest editor of *Recyclable Catalysis*,  
2013 – 2014 vice-coordinator of the International Group of Research „GDRI Catalyse”

Member of the Scientific Council of the Institute of Physical Chemistry, Polish Academy of Sciences in the term of office 2023 -2026

Chairwoman of the permanent returning committee in the Scientific Council of the Institute of Physical Chemistry, Polish Academy of Sciences , in the 2023-2026 term

Member of the Education Committee in the Scientific Council of the Institute of Physical Chemistry, Polish

Academy of Sciences, in the 2023-2026 term

Member of the Audit Committee of the Polish Catalysis Club in the term of office 2022-2024

Since 2015, a member of the Club of Scholarship Holders of the Foundation for Polish Science

Since 2015, a member of the Polish Zeolite Society

Since 2011 a member of the Polish Catalysis Club, Member of the Polish Chemical Society

## THE SCIENTIFIC GRANTS

Project entitled : Hydrodechlorination organic compounds as an example of environmental catalysis - Project numer KBN 4 T09B 098 24 **investigator**

Project entitled : New materials as a basis for environmentally friendly processes - Project number PBZ-KBN-116/T09/2004 **investigator**

Project entitled : Mono- and bimetallic catalysts for hydrodechlorination of organic compounds - Project number NN 204161636 **investigator**

Project entitled : OSCCAR'NOx. - **O**utils de **S**imulation et de **C**ompréhension de la **C**Atalyse de **R**éduction des oxydes d'azote **investigator**

Project entitled: The catalytic conversion of 1,2-dichloroethane, 1,1,2-trichlorethylene as an example of in environmental research - Iuventus Plus 2010 043070 (implementation period January 2011 – December 2011) **leader**

Project entitled: Catalysis for environmental protection – new nanomaterials for catalytic conversion of 1,2-dichloroethane and 1,1,2-trichloroethene into useful and nontoxic products – Projekt POMOST – Fundation for Polish Science POMOST/2011-4/11 (implementation period May 2012 – July 2014) **leader**

Project entitled: Catalytic purification of water from chloroorganic compounds – Project Sonata – National Science UMO-2011/03/D/ST5/05516 (implementation period August

---

2012 – December 2015) **leader**

Project entitled: Chemoselective hydrogenation of vitamins and fragrances precursors with transition metal nanoparticles grafted on resins, Project OPUS 8 National Science Centre UMO-2014/15/B/ST5/02094 (implementation period July 2015 – December 2018) **investigator**

Project entitled: Quantum control of nickel catalytic hydrogenation reactions by means of X-ray free electron lasers (XFELs). Directing catalytic processes (MOVIECAT) - Project Ideas Plus II IdP2015000164 (implementation period April 2016 - April 2019) - contractor in the period August 2016 - December 2018. **investigator**

Project entitled: Novel nanocatalysts in the continuous - flow selective hydrogenation processes towards formation of pharmaceutical intermediates, Project OPUS 17 National Science Centre 2019/33/B/ST5/01271 (implementation period January 2020 – September 2024) **leader**

Project entitled: Single-atom catalysts on functional carbon materials for the continuous-flow selective hydrogenation processes, Project OPUS 25 National Science Centre 2023/49/B/ST8/00872 (estimated implementation period October 2024 – September 2028) **leader**
